**Subject:** Re: Radionuclide Data - Dimock

Dawn, we are all working toward a goal of mid-July to get all data out the door. So I am not sure what to say. I would also hate to change up the Tox review at this late date. I guess we can just keep moving forward and see what happens.

Jerry, any thoughts???

**Subject:** Radionuclide Data - Dimock

Hi, Kelley. Attached is the draft tox memo for the radionuclide data submitted for the Dimock wells. If you have any questions about it, please call me.

FYI - I received your e-mail with the lithium dataset (with lower detection limits) for all the homewells. Because I'm on travel next week, I don't expect to get to it until I return (the week of 7/16). Hope that's okay. If you need something before then, maybe Eric can have another tox look at it. Again, if you need to talk to me while I'm in Colorado, please call my cell. Thanks.

Dawn
